REQUEST FOR RECONSIDERATION

SIR:

Patentees requested a certificate of correction for the above-identified patent on June 7, 2003 deleting the priority claim under "Related U.S. Application Data" and the priority claim in the specification, col. 1, lines 4-9. This section of the specification was deleted in the Response to Office Action of June 23, 2004. Patentees received a denial of their request for a certification of correction on August 9, 2005. According to the Decision, the cover sheet and lines 4-9 of column 1 of the specification were printed in accordance with the record in the Patent and Trademark Office.

However, as indicated above, the record in the Patent and Trademark Office indicates that the request for certificate of correction is in line with the response of June 23, 2004 (such response was acknowledged by the Examiner on the cover of the Notice of Allowability of August 20, 2004).

12637/23

As such, Applicants request reconsideration of the denial of the Request for Certificate of Correction.

Respectfully submitted,

KENYON & KENYON
